

VICTORIA VICERA

Software Developer|Web Developer

An independent and self-motivated professional looking for a position in the IT industry where I can utilize the extensive knowledge I have gained. I studied B.S. in Computer Science and gained experience as a freelance front-end/web developer and enrolled in an in-depth full-stack course to upskill and become Full-stack Developer. I am skilled at writing clear, concise code that is easy to maintain and troubleshoot. I have experience working with small and large teams across multiple projects and companies. Able to work independently of remote locations or in office environments as the company needs.
