

CARL JOSEPH TANIERLA

EXPERIENCE

August 2019 – June 2023

Junior Web Developer • CAFE24 Philippines

- Developed an information system that lets the employees view their schedules, file leaves and get their personal information. It also lets HR and admins edit the leave approval settings, leave generation settings, employee information and workday settings within the app. It also automatically migrates company information and department assignments via cron jobs. It also generates leave credits depending on the increment and generation setting per branch and workplace.
 - Used Laravel, Vue, and MySQL
 - Analyzed and prepared software specifications and requirements needed for the development of this app.
 - Deployed major stories and improvements to the production server.
 - Created development and deployment plans for the project.
 - Provided estimates for each story and improvements.
- Maintained an app that lets user book or schedule an internal meeting, video conference, schedule based on available Meeting Room in company branches.
 - Used Company's In-house PHP framework, JQuery, and MySQL
 - Used the company's OAuth 2.0 based API
- Developed an app that lets users showcase their products in Instagram and embed it in their malls showing with various options on how it will exhibit in the mall
 - Used Laravel, Vue, and MySQL

Jan 2019 – May 2019

Web Developer Intern • Pierre and Paul Solutions

- Developed a Project system that lets the IT Head view Project Tasks, schedules, Progress.
- Developed an Accounting System that lets accounting track company expenses, payroll, Etc.
