Greetings!

It might seem strange that I get excited thinking about colors, typography and digital designs, but my passion for all aspects of graphic design has remained strong throughout my professional career. I am very interested in the **CONTENT CREATOR** that you posted and hope to have the chance to interview for this exciting opportunity.

I do have a background as a freelance and part-time graphic designer and content creator for both voluntary and paid works mainly for social media contents and different digital materials.

With a degree in BS Information Technology and proficiency in various editing software, including Adobe Photoshop and Canva for images, as well as Adobe Premiere Pro and CapCut for video editing.

I am thrilled to see what your company offers if I will be given a chance to be part of your team. I'm looking forward to working and taking this journey on my career with you all.

Hope to hear from you soon!

Cheers,
Moises Ivan O. Leona
